# DATACARD® IDCENTRE™ LITE IDENTIFICATION SOFTWARE

IDCentre software ranges from the Lite edition to the more advanced Bronze, Silver and Gold editions, making it easy to add capabilities as your ID card program evolves.

Core tools for your ID program

Datacard® IDCentre™ Lite identification software offers the essential features you need to create and maintain a start-up ID program in one easy-to-use package. You can design ID cards and production forms with ease, as well as manage your own image capture and printing. When you require more flexibility for card creation and image handling, upgrading is simple.

Simple operation, powerful results

- Become a card design and production expert in no time through an intuitive, user-friendly interface and access to online support.
- Retrieve and incorporate information from a Microsoft® Access database, encode magnetic stripes and print bar codes.
- Leverage the functionality of IDCentre software by integrating it with a Datacard® CD800™ or CP Plus Series card printer.
- Capture images with Datacard® camera plug-ins, or use a TWAIN or Video for Windows capture device the Datacard Capture Plug-in Tool.
- Use the Datacard® IDCentre™ View software for view-only access to your database, which makes it easy to add visual verification checkpoints.
